

SPOTLIGHT AGENT

Matt, his wife Carrie, and children Elizabeth and Ethan have been friends of the Sisson Team for many years! However, five and half years ago Matt made a career move and became part of the team. It doesn't take you long to realize that Matt knows a little about most anything that involves the Grand Strand. Matt enjoys spending time at the beach with family and friends, but he also enjoys exploring the area and learning more "nuggets" about the history of our growing beach town. A nice evening out with his wife, Carrie, is also on the top of his list of things to do. New York Prime is one of their favorite restaurants to visit.

The way that Matt loves and cares for his clients shows in the relationships that he builds with them during the process of them finding a property. Whether it's helping a client find a new home, move to be closer to family, or find a investment property, Matt's favorite thing about being an agent is helping them achieve their real estate goal.

Some fun facts about Matt... He was born in the Philippines, and served six years in the Iowa Air National Guard. Matt also worked for and has served as the Chaplin for the Myrtle Beach Pelicans for many years. He remembers the very first game on April 12, 1999, when the players came onto the field from the outfield through rows of corn.

Anyone who has the pleasure to meet and get to know Matt will forever be grateful. We are! He is such a wonderful asset to our team!

WE ARE HIRING
